DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below.

Cancel claims 29-37.

2. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. Authorization for this examiner's amendment was given in a telephone interview with Mr. Wey on 9-13-05.

Allowable Subject Matter

4. Claims 38-40, 43-50, 53-57 are allowed.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The present invention includes independent claims 38 and 48. Claim 38 recites a method for operating an interface computer system to provide an interface between a financial bankcard network and a communications system that provides a

communications service to a customer with a customer account in the financial bank card network, claim 48 recites a computer-readable medium having computer-executable instructions for performing steps for providing an interface between a financial bankcard network and a communications system that provides a communications service to a customer with a customer account in the financial bank card network.

Voit is considered the closest prior art. Voit teaches Voit et al discloses receiving a plurality of communications service events (col 4, lines 60-67., col 5, lines 1-17). A determination that a service event is complete is made (col 6, lines 47-49) and if the event is complete, the actual cost is determined (col 6, lines 47-55).

Voit does not disclose as claimed in claims 38 and 48 the combination claimed, in particular also including: accumulating a plurality of communications service events and associated costs over a billing period for the customer; determining whether the customer is due a credit or assessed a surcharge; and formatting a second forced post request for the credit or the surcharge, and processing the second forced post request over the financial bank card network.

For these reasons claims 38 and 48 are deemed to be allowable over the prior art of record, and claims 39-40, 43-47, 49-50, 53-57 are allowable by dependency.
